- ◆ Installation and New Construction

George Denmark - President

“John Mills Electric is an established and respected company. We are local to the Southern Tier, based in Elmira Heights, and all of our employees live, work and contribute in this area. We have been in business since 1946, and we attribute our success to treating our customers right, and to our philosophy of high-quality, committed service.”

John Mills Electric originally specialized in power distribution and process control of glass melting and foundry industries. Since those days, the company has kept pace with the technology revolution and the changing economic environment of upstate New York, and has diversified into many specialized technology fields including applications for houses, community solar, healthcare facilities, prisons, schools, shopping plazas, colleges and many more!

Our Clients

John Mills Electric, Inc. serves a wide range of customers. From the typical homeowner, to government agencies, to Fortune 500 companies, we are a diversified electrical contractor committed to serving all of our customers' needs.

Our People

We have the most highly-trained and qualified technicians in the area. We are IBEW Union workers, we are members of the National Electrical Contractors Association, and members of the North American Board of Certified Energy Practitioners.

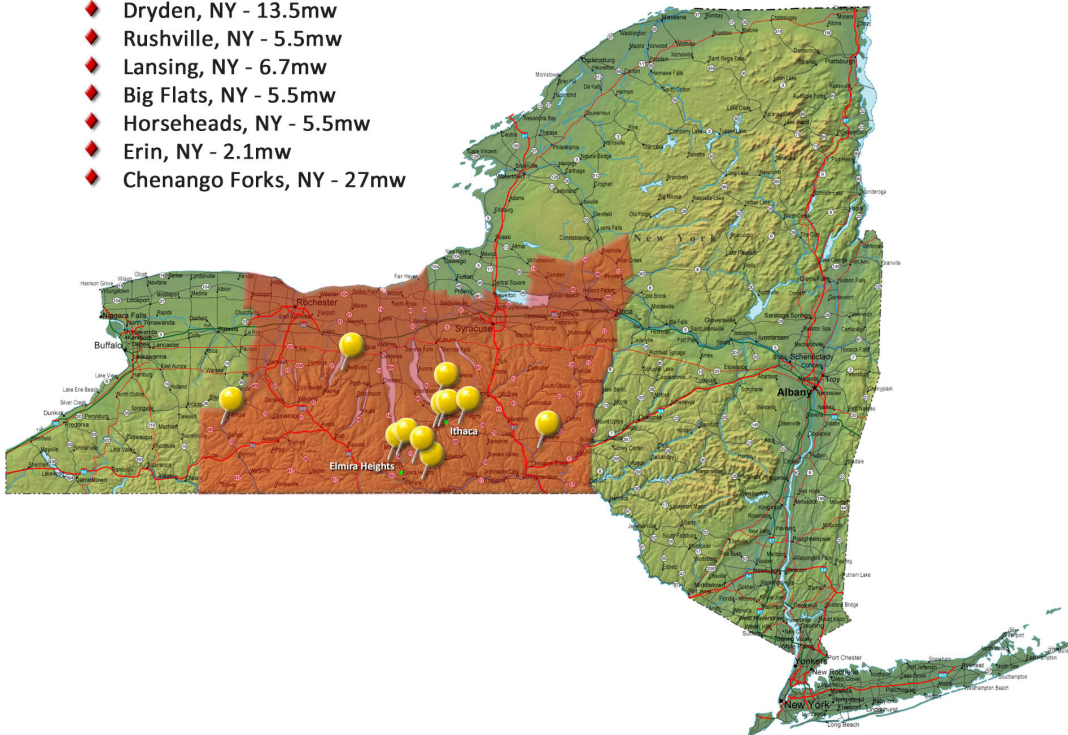

Our Mission

The mission of John Mills Electric, Inc. is to ensure that the values of our founder, John W. Mills, are practiced in our daily operations. Honesty, integrity and professionalism are paramount in how we service our customers, vendors and employees.

Safety Rules in Electric Work

John Mills Electric is committed to jobsite safety and ensuring a safe working environment for our employees. All of our electricians have completed the OSHA 10 course and all of our field supervision and project managers have completed the OSHA 30 course.

NECA Safety Excellence Award 2018

John Mills Electric has been the recipient of the New York State Electrical Contractors "Safety Net" award in 2007, 2008 and 2009.

In 2009, we were just one of 8 electrical contractors out of 200 statewide to receive this prestigious honor. This award is given to us by the New York State Association of Electrical Contractors as a testament to our ongoing loss control efforts which have resulted in a very favorable experience modification rating.

NECA Safety Excellence Award 2021

Additionally, in 2015, 2018 and 2021, we were awarded the Safety Excellence Award from NECA. This award is an elite safety recognition industry staple focused on recognizing thriving companies that excel in multiple areas of their safety and health programs.

Leader, Innovator, Community Member

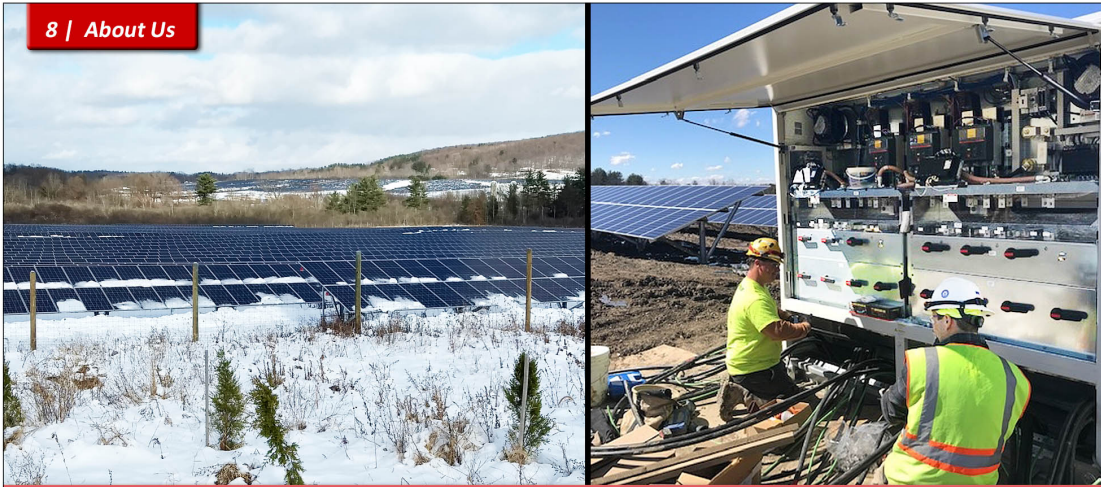

John Mills Electric has been an industry leader in the Southern Tier area now for many years. The company provides prevailing wage pay and benefits to local citizens, and hires skilled union workers from local IBEW offices. Additionally, company leadership serves on several boards and participates in many industry groups including: NECA, NYSEIA, and NABCEP.

True Leadership requires industry innovation. John Mills Electric is not complacent, and is always looking for better ways to serve their clients. For example, in 2015, the company was applauded by *The Electrical Worker*, the primary publication of the IBEW for its innovations in prefabrication. Basically, creating a process where work that used to take days, now takes hours.

John Mills Electric is a local company. As such, we realize the importance of supporting and giving back to the community. Here is a partial list of communities that we support each year:

Meals on Wheels ♦ Arnot Ogden Medical Center ♦ Catholic Charities
 Salvation Army ♦ United Baptist Church ♦ Tom Sawyer Little League
 Clemens Center ♦ Project Graduation ♦ Southern Tier Foodbank
 Corning Museum of Glass ♦ Boy Scouts - Five Rivers Council
 Southport Recreational Sports ♦ Chemung County Historical Society

For individuals and businesses wanting electrical design, installation or repair services, John Mills Electric is the established and experienced leader in the Southern Tier.

John W. Mills, our founder, held honesty, integrity and professionalism as paramount in how he dealt with customers, vendors and employees. We ensure that these values are practiced today throughout our company.

Unlike other electrical contracting companies, John Mills Electric uses only high quality products, installed by our own professionally trained technicians, ensuring that our customers get the very best products and service possible.
